5 Networking Breaks | **100+ Sessions** | **1,200+ Attendees**

Our Purpose

Aviation Safety InfoShare (InfoShare) was established in 2000 to provide an opportunity where air carriers can voluntarily share safety issues, best practices for data analysis, and successful mitigation strategies in an open protected environment.

It is the only opportunity for the worldwide aviation community to share aggregate data for other voluntary programs such as maintenance, ground operations, dispatch, and cabin.

150+ Participating Organizations

90+ Presentations Shared

Our Goal

To facilitate the sharing of safety issues to raise awareness across the worldwide aviation community to enable proactive mitigation before they lead to serious incidents or accidents.

Connect Industries **Share Experiences** **Promote Safety**

The event is closely aligned with the U.S. Aviation Safety Team (USAST), a national level Safety Management System (SMS) addressing systemic risks in the National Airspace System (NAS) alongside the Aviation Safety Information Analysis and Sharing (ASIAS) program, and the U.S. Commercial Aviation Safety Team (USCAST).
